

# Crazy or Free Form Quilting

Use a neutral colored thread.

Use a regular stitch length.

1. Decide on a size and put a **visual reminder** nearby.
2. Always **PRESS** your fabric before cutting.
3. Make sure you have at least **one straight edge**.
4. Strip length should be **longer** than you need - angles can be confusing & require more fabric.
5. Use your sewing machine **foot as a guide** for your seam allowance.
6. Always **PRESS** after sewing.
7. **Trim** away excess whenever possible.
