

## **CRAZY LOG CABIN QUILT**

### **Sewing #3 Log (13 of 22 videos)**

**page 2**

up a little bit because I like to have a little extra room, I am going to put right sides together.

Notice I have not trimmed this off. You do not have to trim off the bottom if you find it is easier to handle to sew it and then trim it off. So I am going to take this over to my sewing machine. Notice I am not going to use any pins- I am using this flat surface here to help me. I have my feeder piece in and I am ready to sew my  $\frac{1}{4}$  (quarter) inch seam. When I have sewn all the way through I can come off now. I really don't need the follower, but it just helps.

So I have got my piece like this, I am not going to have to trim anything here so I can go straight to the pressing board. I am going to press, pull back my log and now I have one complete rotation.
