

Assembling the Four Star Quilt - The Side Rays

Make **8** of the following unit. You will need **one D** and **two C's** for each unit.

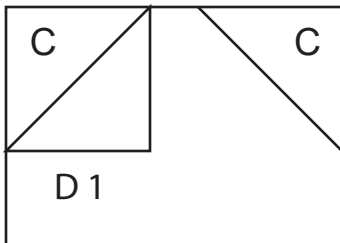

Draw a diagonal line on the wrong side of C. Pin the right sides of C and D together. Sew on the diagonal line. Use a regular stitch length.

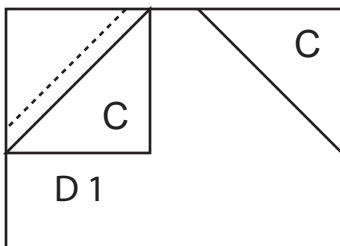

Trim the excess fabric about 1/4" from the stitched line. You might want to keep the excess fabric and use it as a guide.

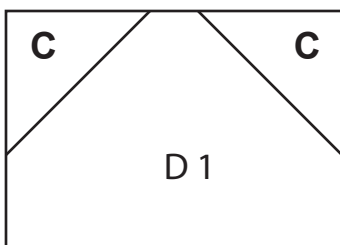

Press the seam. Press C back. The edge of C should line up with the edge of D. You should have a piece that resembles the graphic on the left. Use your template to check for accuracy.

Draw a diagonal line on the wrong side of C. Pin the right sides of C and D together. Sew on the diagonal line. Use a regular stitch length. Press the seam. Press C back. The edge of C should line up with the edge of D.

Trim the excess fabric OR save.

You should have a unit that measures 5 1/2" x 7 1/2".
